

## Outstanding Exam Results 2023

We are extremely proud of our High Schoolers for achieving exceptional scores on their AP® and IGCSE exams, in addition to the Lebanese and French Baccalaureate official exams this year.

We are delighted to share that an impressive 99% of IGCSE exam scores ranged between A\* - C in 9 subjects: Arabic, Biology, Chemistry, Computer Science, English, French, Mathematics, Physics, and Spanish.

At the same level, 100% of students who sat for Advanced Placement® (AP®) exams scored 3 or higher, surpassing the global average in all subjects taken: Biology, Calculus AB, Calculus BC, Calculus BC: AB Subscore, Chemistry, Computer Science A, Macroeconomics, Physics C: Mechanics, and Psychology.

All of our Grade 12 students passed the Lebanese and the French Baccalaureate Official Exams, with a 100% success rate. Adding to this achievement, 75% of our students passed the Lebanese exams with Honor and High Honor!

This stellar accomplishment is a result of our students' hard work and perseverance, as well as the rigorous curriculum and tailored books used at school, which have been intricately devised by SABIS® to address specific exam requirements set by each external examining board.

With the academic foundation and solid life skills they have gained at school, we are certain our future graduates will go on to distinguish themselves in their respective universities, communities, and lives. We wish them all the best in their future ventures!

What do our students and parents think about these exams and the benefits they offer? Read some of their testimonials below!

"The IGCSE program was tough and stressful; nonetheless, it taught us several skills, such as critical thinking and creativity. All in all, the IGCSE program was an extremely useful experience that will definitely benefit us in our future endeavors."

—**Bernard Nader, Grade 10, IGCSE**

"Taking the IGCSE exams was quite the experience. While it was certainly stressful, these exams challenged me both academically and physically, allowing me to improve the way I approached and organized my studies. In the end, thanks to the help of the school and the support of my friends, all the preparation and effort I put into these exams resulted in great success."

—**Clara Abdessater, Grade 11, IGCSE**

*“AP® classes exposed me to universally applicable tools that I implemented in my high school classes, and will be utilizing in college. From time management and study habits to critical thinking, I learned a great deal from AP® and from my teachers. I really encourage everyone willing to work hard to take AP® classes.”*

**—Sarah Nasr, Grade 12 IP, AP®**

*“Taking courses of such a level challenged my time management skills and my school performance as a whole. It’s something that would be worth doing when someone has the time to put in it because results will show. Also, having teachers helping us in preparation was another vital thing needed to make such an experience end on a good note.”*

**—Elias El Khoury, Grade 12 IP, AP®**

*“Renée and Sarah have grown in a way that they never would have at another school. As a mom, I am so pleased that Renée accomplished the A Level path with great success, which increased her chances of being accepted into her chosen university, and prepared her for the demands of higher education where critical thinking and analytical skills are important. I would like to show my great appreciation to the teachers who have taught Renée and have guided her to achieve amazing results in her A Levels. They have been a source of confidence and inspiration to work hard! I also appreciate the most efficient manner in which the online external exams classes were held during the pandemic.*

*As Sarah (Grade 12) is following the AP® path, SABIS® highly provides her with the tools and strategies needed to obtain valuable skills, such as time management, needed for future success.*

*Overall, the external exams were an extremely beneficial academic experience. A huge thank you goes out to the teachers and school administrators, who have helped in encouraging and supporting our kids throughout this journey!”*

**—Mrs. Nahed Nasr, Parent**
